

J. Scott Lane
The Louis Berger Group, Inc.

Scott Lane joined the Louis Berger Group in January, 2003 as the Transportation Planning Manager of their Cary, North Carolina office. Scott has worked in four metropolitan planning organizations, most recently with the Capital Area Metropolitan Planning Organization in Raleigh, N.C. During his 14-year career, Scott has worked on a wide variety of projects involving land use forecasting, public outreach, travel demand modeling, corridor studies, financial forecasts, comprehensive transportation plans, and air quality conformity determinations.

Since arriving at Berger, he has conducted training courses on indirect and cumulative impact analyses for the North Carolina Department of Transportation. He is currently the Project Director for creating a comprehensive guidance for assessing secondary and cumulative impacts for the N.C. Department of Environment and Natural Resources, and is the Principal Investigator of a FHWA study examining the emissions benefits of land use strategies. Scott is a member of the American Institute of Certified Planners; Transportation Research Board; and was the Affiliate Director of the N.C. Section of the Institute of Transportation Engineers (NCSITE).

Scott is the proud father of one daughter and two stepdaughters with his wife, Leigh Lane. Scott and Leigh make their home in Raleigh, where they have lived for the past five years.
